

Memorandum Showing Numerals and Symbols to indicate the force of the wind, state of the weather and sea, and forms and appearance of clouds, with their classification

WINDS

FORCE OF WIND	VELOCITY		Terms used in U. S. Weather Bureau forecasts
BEAUFORT'S SCALE	Miles per hour (statute)	Miles per hour (nautical)	
0.—CALM. Full-rigged ship, all sail set, no headway.	Less than 1	Less than 1	Light.
1.—LIGHT AIR. Just sufficient to give steerage way.	1-3	1-3	
2.—LIGHT BREEZE. Speed of 1 or 2 knots, "full and by".	4-7	4-6	Gentle.
3.—GENTLE BREEZE. Speed of 3 or 4 knots, "full and by".	8-12	7-10	
4.—MODERATE BREEZE. Speed of 5 or 6 knots, "full and by".	13-18	11-16	Moderate.
5.—FRESH BREEZE. All plain sail, "full and by".	19-24	17-21	Fresh.
6.—STRONG BREEZE. Ship "full and by" can just carry top-gallant sails.	25-31	22-27	Strong.
7.—MODERATE GALE. Ship "full and by" can just carry whole upper topsails.	32-38	28-33	
8.—FRESH GALE. Ship "full and by" can just carry reefed upper topsails and whole foresail.	39-46	34-40	Gale.
9.—STRONG GALE. Ship "full and by" can just carry lower topsails and reefed foresail.	47-54	41-47	
10.—WHOLE GALE. Ship "full and by" can only carry main lower topsail.	55-63	48-55	Whole gale.
11.—STORM. Ship can only carry storm staysail or trysail.	66-75	56-65	
12.—HURRICANE. No canvas can stand.	Above 75	Above 65	Hurricane.

STATE OF WEATHER

(Symbols to be used in recording the weather)

b.—Blue sky, cloudless.	p.—Passing showers of rain.
bc.—Blue sky with detached clouds.	q.—Squally weather.
c.—Sky mainly cloudy.	r.—Rainy weather, or continuous rain.
d.—Drizzling, or light rain.	s.—Snow, snowy weather, or snow falling.
e.—Wet air, without rain.	t.—Thunder.
f.—Fog, or foggy weather.	u.—Ugly appearance, or threatening weather.
g.—Gloomy, or dark, stormy-looking weather.	v.—Variable weather.
h.—Hail.	w.—Wet, or heavy dew.
i.—Lightning.	z.—Hazy weather.
m.—Misty weather.	
o.—Overcast.	

SEA CONDITION

(Numerals to be used in recording sea condition)

0.—No swell.	Calm or slight sea.
1.—Moderate swell.	
2.—Heavy swell.	
3.—No swell.	Moderate sea.
4.—Moderate swell.	
5.—Heavy swell.	
6.—Rather rough sea.	Rough sea.
7.—Rough sea.	
8.—Very rough sea.	
9.—Mountainous sea.	

NOTE.—When swell is observed, the direction from which it is moving will be recorded.

EXCERPTS FROM NAVY REGULATIONS, 1920 RELATING TO LOG BOOK

THE ENGINEER AND THE FIRST LIEUTENANT

1361. (1) * * * Whenever the ship is docked, the engineer officer of the ship shall examine all outboard valves (including the mufflers of submarines) in any way connected with the engineer department, also the propellers and shaft tubes, and the result shall be entered in the engineering and ship's logs. The first lieutenant shall examine all other outboard valves, and also the rudder and other underwater fittings, and enter their condition in the ship's log.

THE NAVIGATOR

1019. (4) All courses and bearings that are entered in the log book, as well as bearings for computation, shall be marked to show whether they are true, magnetic, or by the standard compass, and in the last case the ship's head "per standard compass" must be stated, and the deviation on that heading given.

1022. (1) The navigating officer shall have charge of the preparation and care of the ship's log. It shall be his duty, subject to orders from the commanding officer, to see that the watch officers receive instructions relative to the correct manner of keeping the log as may be necessary to insure the proper preparation of same.

(2) When the ship is commissioned he shall begin the log book by entering and signing the remarks describing that part of the ceremony which takes place previous to the setting of the watch.

(3) He shall carefully examine the deck log book, see that it is prepared in accordance with the Navy Regulations and the instructions issued from time to time, and call attention of the watch officers to any inaccuracies or omissions in their entries. He shall then have it accurately copied in the smooth form and placed before the watch officers daily for signature.

(4) He shall enter each day in the log the ship's position, the error of the gyro compass in use, the deviation of the standard magnetic compass, the amounts of fuel and water expended, the quantity of each remaining on hand at midnight closing the day, and such other data as may be required.

(5) He shall immediately before leaving and as soon as possible after entering port, cause the draft of the ship, forward and aft, to be carefully taken and entered in the log.

(6) The smooth log shall be regarded as the ship's official log. It is to be a correct, certified copy of the deck log book.

LOG BOOK

DIRECTIONS FOR FILLING THE LOG

OF THE

PT 127

ATTACHED TO THE

NAVAL DISTRICT

District Headquarters at _____

Section Headquarters at _____

Beginning March 15, 1943, and ending 30 April 1943

DIRECTIONS FOR KEEPING THE LOG

The log shall be kept by civil time.
The columns shall be carefully kept, and the observations taken as nearly on the minute as possible.

U. S. Navy Regulations shall govern as far as they apply. Entries shall be most carefully made in the remarks of every injury, accident, or casualty, however slight, to any member of the personnel, giving particulars.

When ships pass they will be noted in the remarks; if they make signals, note in remarks.

This log will be forwarded to the Commandant of the Naval District for approval at the end of the quarter and forwarded by him to the Bureau of Naval Personnel, Navy Department.

The copy of the log forwarded to the Bureau of Naval Personnel shall be written in ink.
